

*During these stressful times, we know that it is a big task to determine which family would be the best fit for your child. We hope you will select us. We have been through the adoption process before and have enjoyed growing and experiencing the joy of parenthood through our daughter Olivia's adoption.*

*Some of the best times we have had with our daughter have been celebrating birthdays and her many activities (swim lessons, singing, school activities, and play dates with school mates). We are looking forward to opening our arms to another little girl. Our daughter is very excited to be a big sister and is looking forward to it. We are confident that we can nurture and support another daughter along with providing her opportunities to become a self-confident, productive citizen.*

*Our extended families have adopted in the past and are excited to welcome another bundle of joy and surround her with love. Whatever decision you make, we appreciate that you have reviewed our profile. We are available to answer any follow-up questions you may have. For privacy purposes, please send a request to Cradle of Hope for our link to our complete Parent Profile.*
